

AGN Team Selection: ASA & Interprovincial Racewalking Relay Meeting

AGN and ASA will be presenting the 2nd Interprovincial Racewalking Relay meeting, after a successful introduction of this competition format in 2023. This competition will consist of racewalking relay events across all age categories, ranging from youth to masters athletes. All relay teams will consist of two athletes, one being male and the other female. The meeting will include the ASA Racewalking Relay Championships for open category walkers over a distance of 42.2km.

In order to assist AGN and its Racewalking Commission with the selection of provincial relay teams, members are requested to furnish the AGN Office (assistant@agn.co.za) with the following information on athletes that wants to be considered for inclusion into the AGN Team for the Inter-provincial and ASA Championships, by no later than **16 October 2024**:

No	Name	Gender <small>(male, female)</small>	Age Category <small>(youth, jnr, open, masters 40+, 50+, 60+, 70+)</small>

Note: Any athlete not selected for the AGN team may still participate as part of an “individual team”, but the onus is on such athletes to find their own relay partners. However, it is important to note that AGN has first choice over its member athletes!
